INSTRUCTIONS FOR HARDWARE MODIFICATION REQUEST APPLICATION

NOTICE: Unless noted as optional, all items must be answered. Those not applicable may be answered with N/A.

Item 1

Optional. Your reference number for this request. Providing such a reference number will assist us in finding your request if you should inquire as to its status.

Item 2

Enter your licensed name and Gaming Control Board Location I.D. number.

Item 3

Enter your complete identification number as it will appear on the part in the field. Please note that for computer retrieval purposes, we will remove any embedded spaces, special characters such as dashes, periods, commas, etc. Dates are retained as XX/XX/XX with a preceding space.

Item 4

Enter the type of hardware from the following list: Bezel, Bill Acceptor, Bracket, Button Assembly, Cabinet, Circuit Board, Coin Acceptor, Controller, Display, Door, Fan, Glass, Hopper, Hopper Brake, Keypad, Latch, Lighting, Logic Board, Meter, Monitor, Message Display, Placard, Printer, Power Supply, RAM Module, Reel Mechanism, Relay, Security Arm, Shadow Box, Shelf, Switch, Wiring.

Item 5

Enter the original Gaming Control Board Lab number for the device you are modifying or use the game name if unknown. A list of devices and lab numbers is available on request.

Item 6

Enter the Gaming Control Board Lab number assigned to the approved hardware from which this modification was derived. Please note that the purpose of this item is to be able to trace the derivation of any particular approval. If the hardware is being modified from the original approved configuration, use the original lab number.

Item 7

Enter the licensed manufacturer's name and Gaming Control Board Location I.D. number of the party that holds the rights to the original device. This item is provided for Gaming Control Board reference in cases where a manufacturer is seeking to modify gaming equipment which was not originally manufactured or licensed by him.

Item 8

Enter the date of this request submission.

Item 9

Is this an emergency modification request for which telephone approval was previously granted? If this involves a previous hardware component which is defective, identify that part by lab number.

Item 10

Describe the requested change in a concise but complete manner. You should list only the changes that have taken place since the last related approval (Item 6). Other supporting documentation such as drawings should be attached separately.

Item 11

Name of individual authorized by the submitting manufacturer to indemnify the Board from any legal action against the Board as a result of approving the modification.

Item 12

Signature of authorized individual certifying the Item 10 is a complete and accurate description of the modification per NGC Regulation 14 and that the copyright and design information is accurate.
